

Campaign Promise for Northern Development

The Progressive Conservative Party of Saskatchewan are committed to Northern Development. A large component to do so is to “open up the North.” This means ensuring there is year-round infrastructure for transport that will keep up with the elements of nature.

To do this, the Progressive Conservative Party of Saskatchewan pledges \$400 million over 4 years to upgrade the Northern transportation system in Saskatchewan, specifically to:

1. Modernize the Cumberland House Highway
2. invest in air transport facilities
3. improve/expand Wi-Fi capabilities

The investment shall be split equally between the Athabasca and Cumberland constituencies.
